What others say about this ebook:

Review 1:

A good introduction to the subject.

Clear and interesting.

I particularly liked the fact that it describes different cultures from everywhere in the world.

Review 2:

Une ?uvre majeure de la sociologie politique contemporaine. Claire et complexe à la fois, elle expose une théorie de la formation des ordres politiques dans les sociétés préindustrielles très convaincante tout en synthétisant avec brio une Histoire politique des sociétés humaines.

A lire absolument pour qui s'intéresse à ce sujet, et veut comprendre la complexité du monde.

Cela éclaire notamment sur la persistance de certaines formes de relations politiques et institutionnelles et rappellera aux historiens les précédentes considérations de Fernand Braudel sur les différents temps qui rythment l'Histoire.

Review 3:

It reveals a novel insight into political history.

I haven't read it thoroughly, but it is interesting in the beginning.
